## Multiple Bets on Same Matches

### Our view

Recently, we have noticed that some tipsters have been betting on the same matches and same picks repeatedly in a bid to increase their winning percentage in the competition.

By right, the bet limit is \$5,000 per match per prediction.

However, these tipsters intentionally place smaller stakes spread on several bet slips. For instance, Kika79 placed 10 bets of \$500 per bet for France to win in Fixed Odds Betting. Indeed France won 1-0 against Lithuania.

As a result, his winning percentage increased dramatically. Because he won 10 bets out of 10 bets, instead of 1 bet out of 1 bet for the same match and prediction.

Please refer to the next page for a real example of a tipster whom has committed this offence.

**This is an illegal move to increase ranking and we considered this as an attempt to defraud the competition.**

### Punishment for Offenders

With immediate effect, any tipsters who have made similar attempts to defraud the competition will have the related bets deleted from their bet statement.

Repeated offenders will have their account suspended.

We take a serious view on maintaining a fair and impartial competition in SoccerPunter.
